

ENVIRONMENTAL POLICY

Purpose

To:

- integrate environmental management into everyday operations
- maintain sustainability of aquatic and terrestrial environments
- maintain communication to environmental stakeholders

Application

This is the company policy of The Diving Co (NSW) PTY LTD and its employees.

Policy

1. The Diving Co (NSW) PTY LTD operates in a large scope of marine and terrestrial environments across Australia often in amongst sensitive and protected areas. It is in the interest sustainability and integrity that Diving Co maintain a high level of environmental awareness and practice in an environmentally sustainable manner.
2. The Diving Co (NSW) PTY LTD will:
 - monitor and comply with relevant environmental laws, standards and practices
 - comply with additional project specific and area specific environmental policies and directives
 - manage our operational activities to minimise pollution impacts including but not limited to; aesthetics, air, water, flora, fauna, cultural and heritage values
 - strive to improve resource consumption and minimise waste throughout our operations through maintenance and monitoring
 - ensure sound understanding of our implemented environmental policies among employees and clients
 - respond to environmental concerns of our client(s) as well as direct community concerns through the relevant procedural channels of our client(s)
 - set, monitor, report and review environmental objectives and targets.
 - strive to improve environmental performance through diligent monitoring of environmental policies and education of employees.
